SUMMARY OF QUALIFICATIONS

- “Analytical thinking” –From a previous employer
- “Good coding skills for his level” –From a previous employer
- Self-motivated and detail-oriented; always looking for challenges, developed through informatics competition and personal projects.
- Critical thinking and problem solving skills acquired in challenging courses
- Ability to integrate knowledge from unrelated fields to create innovative ideas, acquired in open source projects and computer science courses.
- Knowledge of fundamental programming concepts and their application in C#/C/C++, Java, developed through computer science courses, open source projects and a previous internship.
- Excellent teamwork skills developed through cooperation with other colleagues while developing application virtualization technologies at AppZero.

TECHNICAL PROFICIENCY

- Extensive programming experience in C/C++, Pascal
- Familiar with Java, JavaScript, XML, C#, Lua, Scheme, HTML5, Python and MIPS
- Experience in LAMP products including Drupal, WordPress, GitLab, Discuz! and MPOS(Mining Portal Open Source)
- Mobile development experience on the Android (Java)
- Windows application development using Win32, .Net Framework, C/C++/C#, Python and Visual Studio
- Linux application development using VIM Editor, Bash Script, C/C++
- PlayStation Portable application development using Lua
- Development experience using web services including Amazon EC2
- Proficient with Windows, Ubuntu, Debian and Mac OS X.
- Previously used tools: Microsoft Visual Studio, Eclipse, Free Pascal, Borland C++, Dr Racket, Oracle VM VirtualBox, Git, Microsoft Team Foundation, Redmine and VIM
- Experienced with Application Virtualization Technologies
- Strong understanding of Object-oriented programming and C++ Standard Template Library
- Strong competencies in algorithms and data structures

WORK EXPERIENCE

Software Developer

AppZero Software Corp., Sept.2013- Dec.2013

- Implemented an efficient multithreaded disconnection detection and reporting mechanism and for Virtual Application Appliances. (C/C++/C#)
Implemented multiple graphical user interface enhancements for the AppZero Administrative Console and Tether Console. (C#)
- Fixed all kinds of UI-related bugs.
- Researched and performed low-level troubleshooting between the run-time component, the low-level OS components and Virtual Appliances.
- Assisted the Quality Assurance team in performing regression tests.

Open Source Contributor

SimpleSaving Android Project

github.com/hujiewang/SimpleSaving

- Implemented all core classes.
- Designed user interfaces
- Adopted many Software Engineering paradigms, such as Design Pattern and Version Control
- Available in Google Play

UVA Online Judge Problem Solutions

github.com/hujiewang/uva

- My personal programming contest problem solutions

EXTRA-CURRICULARS

- Competed in numerous programming competitions including UVa online (World Ranking #3623), USACO, NOIP
- Developed three games in LUA for PlayStation Portable: Whac-a-mole, Flyshoot, Phyx Collision and Gravity Simulator
- Completed Udacity HTML5 Game Development course
- Completed Udacity Artificial Intelligence for Robotics course

EDUCATION

Candidate for Bachelor of Computer Science, Co-operative Program, University of Waterloo, Waterloo, Ontario (2012-present)

Relevant Courses:

- Object-Oriented Software Development
- Logic and Computation
- Elementary Algorithm Design and Data Abstraction
- Designing Functional Programs
- Algebra for Honours Mathematics
- Data Structures and Data Management
- Foundations of Sequential Programs
- Computer Organization and Design
- Linear Algebra 1 For Honours Mathematics
- Calculus 1 for Honours Mathematics
- Calculus 2 for Honours Mathematics
- Introduction to Combinatorics
- Probability
- Statistics

Relevant Projects:

- Object-Oriented Software Development
 1. Implemented a Tetris game in C++ for UNIX with a partner.
 2. Adopted many Software Engineering paradigms, such as Design Pattern and Version Control.

AWARDS AND HONOURS

- NOIP(National Olympiad in Informatics in Provinces):top 10% in Guangdong Province, China.(Total 4626 competitors) (2010)
- University of Waterloo President's Scholarship of Distinction, University of Waterloo, Waterloo, Ontario(2012)

ACTIVITIES & INTERESTS

- Sports: Member of University of Waterloo Badminton club
Fishing
- Others: Piano, Microsoft Flight Simulator
